COMPETITIVE PROGRAMMING CLUB

Introduction to C Programming

INFORMATION AND COMMUNICATION TECHNOLOGY

FACULTY OF TECHNOLOGY MARWADI UNIVERSITY, RAJKOT

1. Introduction:

The session was conducted on 6th November 2022. This event was organized online to introduce students to the fundamentals of C programming. The goal was to provide a strong foundation in C programming concepts and syntax, essential for beginners in programming.

2. Event Overview:
1. Introduction to programming and the significance of C language.
2. Basic syntax, variables, and data types in C.
3. Control structures such as loops and conditional statements.
4. Functions and their importance in modular programming.
5. Live coding demonstrations to illustrate fundamental concepts.
6. Interactive Q&A session for students to clarify doubts.

3. Attendance and Participants:

The event had a total of **62 students** in attendance, all actively participating in the session. The online format enabled smooth engagement and interaction among students.

4. Achievements and Outcomes:

1. **Understanding of C Programming Basics:** Students gained an introductory understanding of C programming.

2. **Hands-on Learning:** Live demonstrations provided practical exposure to coding in C.

3. **Enhanced Problem-Solving Skills:** Students learned basic programming logic and structured coding techniques.

4. **Preparation for Further Learning:** The session laid the groundwork for more advanced programming concepts.

5. Challenges:

1. **Technical Issues:** Some students faced connectivity issues, leading to brief interruptions.
2. **Limited Time for Practical Implementation:** Due to time constraints, not all concepts could be practiced in-depth.
3. **Variability in Prior Knowledge:** Some students had difficulty keeping up due to different levels of prior programming experience.

6. Feedback and Evaluation:

The session received positive feedback from students, who found the explanations clear and the content informative. Many participants appreciated the structured approach and live coding demonstrations. Some suggested additional sessions with hands-on exercises for deeper learning.

7. Conclusion:

The online session on Introduction to C Programming, conducted on 6th November 2022, successfully introduced students to the basics of C. Despite minor challenges, the event effectively met its objectives, equipping students with essential programming knowledge and inspiring them to further explore the language.
8. Attendance:

Enrollment No	GR No	Student Name
92200133048	120294	UMUTONI JUSTINE
